Profile

Motivated Full Stack Developer with hands-on experience in web and mobile development, passionate about creating user-centered, high-quality applications. Skilled in building responsive and scalable mobile and web interfaces using Flutter, Dart, HTML, CSS, PHP, JavaScript, and modern UI frameworks. Strong foundation in UI/UX design, component-based architecture, and performance optimization. Eager to contribute to innovative, impact-driven products by applying problem-solving, collaboration, and continuous learning to deliver clean, maintainable code.

Professional Experience

Full Stack Developer

09/2023 – Present, Safi, Maroc

Technology & Telecom

- Developed and maintained cross-platform applications (Web, Android, iOS) using Flutter/Dart.
- Designed, optimized, and continuously improved responsive web interfaces (HTML, CSS, JavaScript, PHP) in production, including bug fixes and new feature development.
- Integrated REST APIs and Firebase (Auth and Cloud Messaging) with push notifications, error reporting, and offline caching.
- Actively contributed to the full development cycle: requirements analysis, design, coding, testing, and deployment.
- Collaborated within an Agile team and used Git/GitHub daily for version control.

End of studies internship

03/2023 – 08/2023, Safi, Maroc

Technology & Telecom

- Designed and developed a web and mobile platform for real-time prediction of public transport schedules, with a front end in Flutter/Dart and a back end in Node.js.

Other Technical Internships

2019 – 2022

- *OCP Laâyoune* (2 months): Developed a web application in Python/Django and implemented network automation with Ansible.
- *Regional Direction of H.C.P Laâyoune* (1 month): Developed a Java application for managing building permits.
- *EST Laâyoune* (1 month): Designed and developed a web application for linear regression (PHP/JavaScript) with R integration for statistical analysis.
- *Urban Agency Laâyoune* (1 month): Created an internal purchasing website for staff using PHP/HTML/CSS/JS
